FFG/EIP is acting as ...

- Hosting **Austrian National Contact Point (NCP)** for all specific EU RTD programmes
- the **Austrian "one-stop-shop"** for EU and international RTD programmes, etc.
- a **partner in international networks** for collaborative RTD and TT: e.g. NCPs, IRCs, EUREKA,.....
- a partner and co-ordinator in **EU projects** supporting the EIP objectives & strategies
- the **gateway to RTD partners from Austria**

Benefits of EU RTD co-operation

- providing additional resources
- creating critical mass while sharing the risks
- strategic alliances for other activities
- orientation on new developments
- motivating people & organisational development
- contributing to your image and reputation
- development of networks & personal friendships
- Create win-win situation - not just for the money!

"Costs" of co-operation

- time and resources needed for management and communication
 - telephone, fax, travel, meetings
- cultural differences in problem solving, management, communication, timing, ...
- more complex decision making processes
- the human dimension: personal "chemistry" ...
- dependency on performance of your partners
